

BAMDAD ERFANIAN

FULL-STACK DEVELOPER

A dedicated developer who takes pleasure in sharing enthusiasm and expertise for code and mixed-format projects. A dependable team player committed to delivering optimal outcomes.

WORK EXPERIENCE

Senior Front-end Engineer [Corellium](#) | Nov 21 - Present

In my role with the Product team, I designed our UI library and design system, updated our website, and modernized our core application, collaborating closely with the core engineering team throughout.

Full-stack Engineer [Pay.com.au](#) | Nov 20 - Nov 21

I was responsible for creating a secure and fully audited payment platform, and the public release of the application. Furthermore, I built the company's user interface library and developed various integrations to enhance the functionality and user experience of our software solutions.

Full-stack Engineer [LeadChat](#) | Jun 19 - Nov 20

I built and oversaw the operation of three React applications and two backend APIs, ensuring their seamless integration and function. Furthermore, I devised and constructed the company's design system and user interface library, laying the foundation for an intuitive and user-friendly environment.
